DETAILED ACTION

Information Disclosure Statement

The information disclosure statement (IDS) submitted on 6/19/06 has been considered by the examiner.

Additional Prior art cited

Mimura et al discloses a triangular-pyramidal cube-corner retro-reflective sheeting; and Son et al discloses a three-dimensional imaging screen for multi viewer having a plurality of truncated triangular prisms.

Drawings

The drawings filed 6/19/06 are acceptable.

Allowable Subject Matter

Claims 1-12 are allowed.

The following is an examiner's statement of reasons for allowance: Each of Mimura et al. and document JP 2001-33609 discloses a retroreflective sheeting having triangular pyramidal prism elements. However, the disclosed retroreflective sheeting does not include a triangular pyramidal frustum prism element having particular dimension as specified in claim 1; lines 5-13 (also see claim 7, lines 5-12).

Document JP 9-304605 discloses a prism sheeting having the claimed dimension for use in a display device. However, the document JP 9-304605 teaches away from Mimura et al and the document JP 2001-33609 because the disclosed prism sheeting is of a transmissive type (see Figs. 6-8) which does not provide a reflecting function. Thus, a proper combination of either Mimura et al or the document JP 2001-33609 and

the document JP 9-304605 cannot be made; and thus, the claimed invention defined in each of claims 1 and 7 is allowable over the cited prior art. Claims 2-6 and 8-12 are directly or indirectly dependent on claims 1 and 7, respectively, and thus allowable at least for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James Phan whose telephone number is (571) 272-2317. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Allen B. Stephone can be reached on (571) 272-2312. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
